AccountReporter™

Empower sales managers with valuable information.

AccountReporter™ empowers sales managers with valuable information from the AccountManager™. With AccountReporter™, you can easily query the information you need, then generate reports directly in Microsoft® Excel®. Opportunity reports, quote reports, sales reports, activity reports and more can be generated by the AccountReporter. Custom reports are easy to create using the configurable export wizard. Simply fill out a template to create your own report and save the report for future use.
