

# PartnerAccess™

## Extend CRM to your Representative Sales Team.

PartnerAccess™ extends the capability of the AccountManager™ to your sales partners. Your manufacturers representatives can manage real time sales opportunities and forecasts, view quotations, share a secure document library and much more. The solution also eases lead distribution and follow up. PartnerAccess™ provides a secure platform for CRM sales data via a secure web browser or synchronizes data from your partners AccountManager™ software giving you instant insight into your sales organization.

PartnerAccess™ can save you time and money by giving you and your partner real time sales information allowing you to respond faster and sell more. With PartnerAccess you can distribute and view strategic sales initiatives, global accounts and lead follow up. Real time global sales collaboration has never been easier.

**Never ask for a report again... simply access your Representatives information in real time.**
